

XI FACIAL NERVE SYMPOSIUM

ROME 2009

Dear Colleagues and Friends,

it is a great honour and pleasure for us to take part in the selection of the venue for the next Facial Nerve Symposium in 2009. Our school has always expressed particular attention to this issue, with active participation in the last three editions. During the Business Lunch of the last Symposium in San Francisco in 2001, our offer to host the 2009 edition in Rome was proposed and preliminarily accepted..

Not much can be said which is already not known about the Eternal City, which is long since accustomed to welcome people from all over the world with the warm hospitality of its ancient and modern facilities.

We are aware that hosting a scientific event in Rome will assure to have, along with the usual high-level scientific exchange between delegates, the natural support by the gorgeous cultural and historical masterpieces of the city.

We will therefore be delighted to have the possibility to invite you to Rome in 2009 for the XI International Symposium on Facial Nerve.
